J. W. BRADLEY'S

PATENTED "DUPLEX ELLIPTIC" STEEL SERING SKIRT.

This invention consists of Duplex (or two) Elliptic Stee Springs ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable Spring over used, enabling the wearer in consequence of its great elasticity and flexibleness to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silances the only objections to floop Skirt, viz: the sameyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or it any crowded place from the difficulty of contracting them and occupying a small space; this entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the flightest and most stylish and graceful appearance for the attreet, opera, promenade or house dress. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never alterward willingly dispense with the use of them. They are the best quality in every part, by tar the lightest, most durable, comfortable and ecohomical Skirt made. Merchants will be supplied as above, and laddes in most first-class result afores in this city and throughout the different States.
